

**When we join together to solve Greater Boston's most critical issues, amazing things happen!**

**Together we are...**

### **Demanding Equity for All**

We demand change and equity by lifting up every member of our community and welcoming everyone with open arms and open minds. We create programs and spaces where our community feels seen, heard and safe. We purposefully build bridges between diverse groups of people, ideas and actions, to make a nation free of racism and inequality. Because if you can't envision the future you want to have, you can't create it.

**Your gift of \$25,000 could provide professional development and summer employment opportunities for 25 teens.**

### **Building Bright Futures**

Imagine a future built by our children where they truly feel like they belong. Where they are surrounded by a caring community and receive the right kind of academic support and social-emotional development. From early education to after-school, youth sports and swimming lessons, summer camp to preparing teens for college and beyond – we reimagine a holistic approach to education that empowers our children to create the future they want to be a part of.

**Your gift of \$5,000 could offer financial assistance for 4 months of high quality early education care for working families.**

### **Ending Hunger**

We provide free, nutritious, culturally appropriate meals that nourish children, families and seniors so they can thrive in meaningful ways. Our 70 distribution sites distribute millions of meals providing a foundation for love and hope to grow. More than full bellies, our hunger prevention work gives all people the strength to carry on.

**Your gift of \$100,000 could fund operating costs for the YMCA's food distribution center for 3 months.**

### **Improving Community Health**

Our nation and communities are facing a health crisis, and we continue our commitment to step up to help heal and provide hope to those who are struggling with their wellbeing by designing health programs that address the mind, body and spirit. We offer real tools and real support in person, or virtually, to address health disparities and help everyone create healthy habits to make real, long lasting, positive changes.

**Your gift of \$10,000 could fund financial assistance towards XX sessions of swim lessons, teaching children healthy habits and how to be safe around water.**

### **Eliminating Barriers to Family Economic Stability**

Addressing poverty at its roots with programs that eliminate barriers to economic stability. We work with partners in our Greater Boston Community to address chronic and emergent needs for families in crisis by providing programs, resources, and a caring community that creates stability and inspires hope.

**Your gift of \$50,000 could enable ten adults to enroll in Training, Inc., and find a pathway to family-sustaining wages.**
